

BY THE NUMBERS

HERE ARE SOME QUICK HIT NUMBERS FOR 2024

OVER

3,000

Medical,
Dental, &
Pharmacy
Patients

\$1,423,000

IN PRESCRIPTION COSTS

OVER
\$1,700,000

IN TOTAL MEDICAL CARE
PROVIDED

5,100 HOURS

OUR VOLUNTEERS GAVE OVER 5,100 HOURS OF THEIR
TIME TO MAKE THAT POSSIBLE!

Those volunteering at our Mobile Market also gave 1,630 more volunteer hours and fed over 4,100 families representing over 10,000 people! 330 of those families were new to the Market this year. That's approximately 88,000 meals provided to thankful families in need.

HEALTH

PHARMACIST OF THE YEAR!

Melanie Loftus, PharmD, R.Ph

In partnership with the Ohio Department of Health (ODH), the Charitable Healthcare Network (CHN) is proud to name Melanie Loftus, PharmD, R.Ph, as the 2024 Free Clinic Pharmacist of the Year. Loftus serves as the Pharmacy Director at the Hope Clinic of Ross County, where her leadership, passion and dedication have transformed lives and expanded access to care for underserved populations across 14 counties in Ohio.

We are so proud of Melanie and very grateful to have her as part of our Hope Clinic family.

WE'RE EXPANDING! IN A GOOD WAY

We're excited that we'll soon have a larger more convenient office from which to serve our patients. One of the best things about this expansion is that we didn't have to move to make it happen! By joining our current office with one right next door we are able to double our area and create a more efficient clinic. A definite benefit that will come from this change is having our dental clinic in the same office with the medical clinic. Since opening in 2013, Hope Clinic Dental has occupied an office in the same building but separated from the medical clinic. Once the renovations are complete, we'll finally all be in the same office area. Just another way to make our services more convenient for our patients and volunteers. **Watch for an Open House announcement sometime this spring/summer!**

PATIENT STORIES

“After receiving a voucher for a free eye examination and glasses, a patient called to let us know the local eye doctor found he has cataracts beginning in both eyes. He then went on to say how much Hope Clinic had impacted his life. He has lost weight, feels 50 rather than 80 and couldn't be more thankful for the help he has received here, including his new glasses!”

“In a routine diabetic appointment for one patient, the provider ordered lab work and an ultrasound on the Thyroid because he felt it was enlarged. The ultrasound found the thyroid had multiple nodules and his thyroid labs were abnormal. With this information and a consultation with another Endocrinologist, the patient was referred to an ENT. The patient had surgery to remove the thyroid and the findings were negative for cancer. The patient's labs are now normal and medication is helping him maintain his condition. He is thankful we discovered the problem and were able to help him get things taken care of.”

“My mom has to have urea daily to keep her sodium levels up. Her urea was not covered by her insurance and she couldn't survive without it. Hope clinic pharmacy was able to obtain the urea for her daily use.”

“A husband and wife came to the clinic because they lost their insurance and could not afford insurance premiums. They were both diabetic and had numbers that were out of range. They were able to obtain free labs and medication and get appointments with an endocrinology specialist. The husband was able to get free insulin medication that would normally cost \$500 per month. His A1c (average blood sugar) is now improved and overall, both of their medical conditions are better due to the care and services provided at Hope Clinic.”

“My insurance denied covering some of my medications but Hope Clinic was able to provide them. If they had not, I would not be able to take them.”
